

Summary of the Policies

The following policies emerged from the consultation process

NHE1 - Local Green Space

designate Shrewsbury Gardens as a Local Green Space to preserve it for community use and hopefully attract investment from community funds.

NHE2 -Rooftop Terraces, Greening, Structures and Supporting Privacy

support for planted roofs, roof terraces, and screened balconies that balance a need for green space with neighbour privacy.

NHE3 - Our Gardens

proposals to protect front and back gardens. The ambition is to preserve our neighbourhood's garden heritage for generations to come.

NHE4 - Reinstatement of Architectural Detail

proposal that encourages reinstatement of missing architectural details on building fronts during building projects.

NHE5 - Energy Conservation and Generation

support for double glazing, solar panels, alternative energy, and innovation that helps achieve climate goals

NHE6 - Underground Development

guidelines for underground development to enable consistent planning decisions while ensuring deep garden planting spaces remain

NHE7 - Roof Extensions and Mansards

support for mansard roof extensions, but promotion of lighter construction materials and more energy efficient designs.

NHE 8 - Rear Extensions and Green Valleys

support for innovation in rear extension design, but with limits on depth, width, and height to preserve gardens and prevent overshadowing of neighbours.

NHE9 - Commercial Shopfronts

proposals aimed at upgrading the design of shop and storefronts that are complementary to the neighbourhood area.
